Project Name	Project - A Reliable Energy Consumption Analysis System For Energy-Efficient Appliances

I am a homeowner who is concerned about my electricity usage and wants to find ways to reduce waste and lower costs. I am trying to use a power consumption analysis ML project to understand and predict my energy consumption patterns. However, I am facing challenges in accurately predicting future energy usage based on the collected data. Because of this uncertainty, I feel overwhelmed and unsure about how to effectively manage my energy usage and make informed decisions.
